

AAS 7506

PERIMETER SEAL

A robust seal designed for use on plain or rebated meeting stiles. With proven acoustic performance it is also suitable for smoke, light, and draught containment. The leg can be cut out to make way for locks and latches.

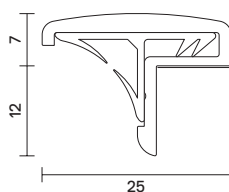

MEDIUM DUTY

AAS7506 ↓

TECHNICAL

AAS7506 ↑

Location

Meeting stiles of single action double leaf doors - where only one door leaf is in use.

Seal Material

Co-extruded elastomeric with flexible curved fins.

Standard Lengths

- 2.25m, 2.75m and 3m.

Fixing

- Fixing holes pre-drilled and countersunk.
- Screw pack provided.
- Using self-adhesive tape to position aluminium carrier while fixing, push-fit Batwing® seal into place.

Note: A door selector should be considered unless one leaf is intended to be fixed.

Finishes

- Silver anodised aluminium with grey gasket.
- Other colours available.

PERFORMANCE

Acoustic

ISO 10140-2 & AS/NZS ISO717.1.

Weighted Sound Reduction Index

35 dB.

(AAS7506 & AAS8501 on a proprietary acoustic door).

Smoke Leakage

BCA Specification C3.4 smoke sealing requirements.
